4. Description of the project Intervention/activities undertaken (Elaborate in detail with technical inputs the journey/story of the farmer/challenges faced -) Beneficiary of this Cage Culture program under Centrally sponsored Blue Revolution scheme 2019-20 is a fisherman resident of Village – Maheshpur, Block – Angara, District – Ranchi situated near by Getalsud Dam. The beneficiary is member of Maheshpur fishermen Co-operative society ltd., Maheshpur, Angara District- Ranchi. 19 other members of the society are also beneficiary along with him in the same scheme. All these members were facing unemployment and could hardly earn their livelihood by fish catching in Getalsud Dam randomly, which was very much uncertain. After intervention of fisheries department through the present program under Blue Revolution scheme they started controlled fisheries in open area of Getalsud Dam which provided them a ready platform for controlled fish culture in Dam area having immense potential of fish production. They got

all technical supports from fisheries department. Initially they faced some problem due to lack of technical knowhow and spirit of group activities. They also had some doubts about success of this scheme. But after getting motivated from fisheries department officials they applied for the present scheme and after being selected they started fish farming. The 1st year result of fish farming under the scheme was very good. And these members were very much enthusiastic. 2nd year result was more encouraging which fixed the mindset of these members in the area of fish farming. Now a day's all these members are doing very well in fish farming. Their lives have become more easy, economically stable, prosperous and more promising.

5. Economics of the Activity:

Year	Business Activity (Production/Service)	Production Related		Service Related	Total Expenditure (Rs.in Lakhs)	Returns (Rs.in Lakhs)	Net profit (Rs.in Lakhs)	No. of fishermen & fishermen benefited
		Annual Production (Lakh Tonnes)	Annual Quantity marketed (Lakh Tonnes)	Annual Value of Services provided (Rs.in lakhs)				
2020-21	Fish Production	0.00025	0.00025	0.15	1.00	2.00	1.00	04
	—	—	—	—	—	—	—	—
2021-22	Fish Production	0.00030	0.00030	0.15	1.00	2.40	1.40	04
	—	—	—	—	—	—	—	—
TOTAL		0.00055	0.00055	0.30	2.00	4.40	2.40	04

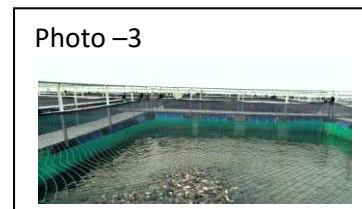

6. Photos of Fisheries Activities: (provide actionable photos)

(Close up)

Note :- There are altogether 20 members of the society who are along with beneficiary are beneficiaries of this scheme on the same project site.

7. Outcome of the intervention/activity undertaken

a. Improvement in business practice:

i. The beneficiaries are focused, in fish culture. Their fish farming practices have improved. These practices are now fully based on technical and scientific mode.

b. Details of the best practice adopted which helped with good results:

i. These members followed regular and optimum supplementary application and its follow up in a very much disciplined manner resulting into optimum fish production result.

c. Total Employment generated:

i. Male : 50

ii. Female : 30

d. Anything specific : The essence of scheme is very good and result orienting. The best part of the scheme is that it provides an enclosed area in huge reservoirs for controlled fisheries having huge production potential in very much small water area.

8. Impact on improvement of livelihood: Fish Production under this scheme has provided good opportunity of earning their livelihood easily and sufficiently. They have now surplus.

9. His/her Future plans – These members are now planning to explore the maximum fish production potential from the water area. In future they are also planning for expansion on their own.
